WHITMAN FOR GOVERNOR OF EMPIRE STATE

[Associated Press by Fed. Wireless.] NEW YORK, July 28.—Despite the fact that Theodore Roosevelt of the Progressive party has urged voters of all parties in New York to give their support to Harvey Hinman, Republican candidate for the nomination for governor of New York, Chas. S. Whitman last night decided to enter the race for the Republican gubernatorial nomination.

SOMETHING ABOUT KUHIO WHARF

Changes may be made in the plans for the construction of the sheds of the Kuhio wharf. The plans for this work are now before Governor Pinkham. Speaking of them this morning, the latter implied that he had important changes in view but he would not discuss their nature at this time. From what he did say, however, it appeared that he was not satisfied with the size of the sheds and is under the belief that while they are large enough to accommodate present traffic, in a few years, from now they will be altogether too small.

The board of harbor commissioners worked out these plans with the idea of saving as much of the \$134,000 appropriation as possible. This figure is the amount of the appropriation made by the last legislature for the completion of the wharf.

10 CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and Stomach Regulator in the World—Work while you sleep.

Get a 10-cent box. Put aside—just once—the Salts, Pills, Castor Oil or Purgative Waters which merely force a passage through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have a Headache, Bile, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.—advertisement.

LEAHI HOME TO REAP BENEFIT FROM THE BIJOU

Several hundred dollars may be realized by the Palama settlement to assist it in carrying to success its outing scheme for the poor, as a result of the stand taken by Mrs. Emma "Muzz" Lang of the Juvenile Bostonsians.

Having read of the efforts being made by the settlement to make its summer outing scheme a success, and the financial handicap which besets it, Mrs. Lang proposed to J. C. Cohen, manager of the theater, that for the week's performance beginning August 3, ten per cent of the entire receipts be turned over to the settlement to go into the summer outing fund.

"It is a pleasure to help along a thing like this," said Mrs. Lang, "and I hope it turns out a big success."

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisulphate of magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisulphate of magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisulphate of magnesia from your druggist, take some of the bisulphate of magnesia as directed above, and see if I am not right." PERFECT SHOES SUBMITTED AS ARMY SAMPLES

WASHINGTON, July 24.—A nationwide shoemaking contest, just brought to a close by the awarding of two army contracts to the winners, produced two hundred and forty pairs of the most perfect samples of military footwear ever manufactured, according to the board of army experts who passed upon them.

"Next to the quality of the gun he carries," said one of these army experts, "more depends upon the condition of the shoe he wears than upon any other factor that goes toward the make-up of an effective soldier."

As a result of this feeling, the United States army quartermasters have evolved a shoe which, they say, makes the American fighting man the best shod soldier in the world.

It took over a year of continual and careful experiment before satisfactory results were reached. Countless x-ray photographs were made; the position of the bones of the feet were noted and the anatomy before, during and after marches was studied and compared. All this time different models were tried and theories were worked out. Finally the type of shoe was evolved with its straight line on the big-toe side, its snug instep and a chance for the toes to lie as freely and naturally as in a moccasin.

When the theory of scientifically covering the foot had been established to the satisfaction of the army experts, various manufacturers placed their plants at the army's disposal in the hope they would be rewarded with the valuable contracts to supply the thousands of pairs worn out in a year's marching for Uncle Sam.

But the quartermaster corps did not limit itself to a single firm. They worked out a system of having each firm submit a sample of what it could do. Two pairs of shoes were offered by each bidder, showing the manufacturer's ability to meet specifications. The two hundred and forty prize pairs of shoes were the result, and out of these are being selected the standard for the army's future footwear.

The French army has equipped an armored train with ammunition cars and rapid firing guns which can be hurried to any point along a railroad that skirts the sea.
